

Products for Purifiers

Under the brand SEFAR NYTAL we offer a comprehensive range of fabrics specifically for purifiers. Our open-mesh polyester fabrics are available as ready-made products as well as roll goods.

Product Features

Fabric and fabrication solutions

With around 190 years experience in the manufacture of precision fabrics, Sefar offers market-leading fabric technology in the milling industry – from yarn to fabric, precisely tuned for each type of purifier. The range includes PET, PA fabrics for efficient screening in all stages of your process. All fabrics conform to current FDA and EU regulations.

Connector sleeves

Connector sleeves from SEFAR **TETEX** MULTI fabrics provide permanent, secure and flexible connections between the screening machine and the inlets and outlets of plansifters or other purifiers and cleaning machines. These specifically-developed components ensure a precise fit to the connection. Connector sleeves that comply with food-product standards and regulations can be produced on request.

Accessories

Sefar also offers a wide range of accessories to help your Sefar fabrics perform their best. For example, the use of SEFAR Pneumapp 2 stretching tables and SEFAR Tensocheck 100-R and Quicktal adhesives ensure optimal stretching of your screen. A large selection of screen cleaners ensures consistently high throughput. Furthermore, you can also find a wide variety of other helpful tools.

Food compatibility

The fabrics of the SEFAR NYTAL PA and PET range are made from yarns that contain only substances recognized as safe for use with foodstuffs.

Relevant guidelines and regulations:

- FDA Code of Federal Regulations (USA), Food and Drugs, Art. 21, Section 177.1500
for PA, 177.1630 for PET (indirect foodstuff additional material: polymers)
- Regulation (EU) No 1935/2004 of the Commission dated 27 Oct. 2004 on materials
and articles made of plastic and are intended to come into contact with foodstuffs
- Regulation (EU) No 10/2011 of the Commission dated 14 Jan. 2011 on materials
and articles made of plastic that are intended to come into contact with foodstuffs

Our subsidiaries and selected representatives around the world are pleased to advise all customers individually.
